2,500 MEN ARE KILLED IN THREE HOURS' BATTLE

(CONTINUED FROM PAGE ONE)

Russian Defeat Seems Inevitable.

London, July 5.—The growing impetus of the Austro-German advance is such that a decisive Russian defeat seems inevitable, according to military experts, unless the entente powers initiate a powerful diversion on the Italian or the western front. A sudden shortage of high explosives, the supply of which will flow to the front more irregularly as the railways become less and less available might also avert complete defeat.

War Periscope.

London, July 5.—Eastern Campaign—Tentative allies gain further ground in Russian provinces.

Western Campaign: Severe fighting in Argonne forests.

Southern Campaign—Italians claim slow but steady progress.

Submarine: Germans sink four British and one Belgian steamer. Russians sink two Turkish steamers and three armed schooners.

Dardanelles: Turks report repulse of allies.

What Russians Lost.

Berlin, July 5.—Military writers figure that the Russians from May 2 until June 27 left in the hands of the Germans 1,630 officers and 529,000 prisoners, and 300 field guns and 770 machine guns, besides incalculable war material.

Civilians Leaving Warsaw.

Petrograd, July 5.—A great number of civilians are leaving Warsaw in order not to hamper military operations.

German aeroplanes are dropping messages into Warsaw stating that the city will be in the possession of the Germans within a month.

The Germans. It is said, have drawn up lists of prominent Poles whom they plan to hang for their Russian sympathies.

All trains arrive and depart from Union Station at junction of Oklahoma and Harrison avenue and Fourth street.

Baptism of Fire Greeted Harry Mestayer's Entrance In Motion Picture Plays

By HARRY MESTAYER.

[Harry Mestayer is one of the most prominent actors on the American stage. He has assumed leading roles in many important stage productions and comes from a line of theatrical people. He has written herewith his experiences as a leading man in the Selig Polyscope play, "The Millionaire Baby."]

Two years ago, if anyone had approached me with a contract to appear in motion pictures I would have turned down the offer. And yet, like many other actors, I have seen the light. The change of heart was not compulsory, for I came to realize that in motion pictures of higher class the conscientious actor has as great an opportunity for artistic work as on the spoken stage. I considered at some length, too, before I affiliated permanently with any motion picture concern, and I chose the Selig Polyscope company because of the enviable reputation attained by the Selig spectacular productions and the artistic environment made possible by the careful supervision of Mr. William M. Selig.

"When I started to work in 'The Millionaire Baby' in the Chicago studios of the Selig Polyscope company I was also appearing in the lead in a dramatic production on the speaking stage at one of the leading theaters in that city. This placed me under quite a strain and all I did for several weeks was work and sleep—very little of the latter. I was at the studio every morning at 8:30 and worked steadily until 5 or 5:30 in the afternoon. Then I rushed downtown and, after a rather hurried supper, sped to the theater in time to appear on the stage at 8:15.

"It was quite an experience to be working in two characters which were themselves so different and which

to enter the shack. Suddenly, however, the flames leaped up, fanned by a breeze which suddenly swooped down on us, and the other player and myself found that we were within the four walls of a blazing furnace, the door having caught fire, too.

"Our first impulse, naturally, was to make our escape in the quickest manner possible, but both of us realized that if we did it would require the rebuilding of the shack and repeating of the many efforts we had in getting the scene to the point we had reached, so we determined to make an effort to carry out our parts in the gamest manner possible. We rushed through the flames to the door and then with my fellow player I staggered through the door and out in front of the camera, where we both fell exhausted. When I saw the picture I easily understood why the director told us we had done very well, for the way we both sank to the ground was realistic in every detail.

"This scene also called for a rain effect and the water pouring down upon us added to our discomfort. This is merely one incident of the dangers to which a picture player is exposed. I would not have gone through that much in ten years on the stage, but the fact that I now can have my own home and keep regular hours every day more than makes up for all.

"I presume most of my readers know that 'The Millionaire Baby' was adapted to the screen from the story by Anna Katherine Green, and I am sure that those who have read the works of this noted writer will agree with me when I say that her plots are more baffling than those created by any other writer of the present day. There were scenes in the production where the slightest show of any kind of emotion would have disclosed the denouement and ruined the entire effect of the picture, so you can imagine how I felt at first playing close up to the camera and having to hold every muscle of my face tense when I had been used to being far away from the audience, with the footlights between us, where facial expression is a secondary consideration.

"This is one of the causes for many

"I Have Saved Him!"

were presented through such widely different mediums, and this novelty relieved the monotony of such a steady grind.

"I will try to tell you some of the interesting things which occurred during the filming of the big scenes for 'The Millionaire Baby.' The first one that comes to my mind, and one which I will remember for a long, long time, was a fire scene in which I was supposed to rescue another actor, who was playing the part of my employer, from a burning building. Our director tried using smokepots, but these did not give the realistic effect which he desired, so he determined that the shack which had been erected in the large yard of the studio would have to be burned and that the two of us who were to appear in the scene would have to undertake what is termed by the players 'a stunt.' In other words, we would have to run the risk of being injured for the sake of realism.

"The other player was placed in the shack and the fire started. The 'business' of my part called for my rushing into the building and carrying the other man out through the smoke and flames and 'off' the scene. Oil was sprinkled on various parts of the shack, but not around the door through which we were to exit while I was doing the 'rescue.' All appeared to be going nicely as I made my way past the camera and started

failures of stage stars when they appear before the camera. They fail to realize that everything they do is recorded by the camera and that a slip which might go unnoticed on the stage will ruin a whole scene in a film drama and possibly spoil the entire production if it is not retaken. One of the most difficult scenes in 'The Millionaire Baby' was the one in which the child is stolen. The skill of handling this so as not to 'kill' the whole story depended more upon the men who re-finished the film after the director had finished with it than upon the players, and I understand that these men worked till the wee small hours several nights in succession.

"Had the players who supported me in this production been other than they were I do not doubt but what my lot would have been anything but an enjoyable one, but as it was we were just like one big family from the very moment we began work. It was this perfect team work in the many trying scenes that gave the film the finished effect which I am sure will prove a delight to audiences wherever it is shown. I have nothing but praise for all the players and the director and, above all, for William M. Selig, the man who is behind the many splendid productions presented by his company, and whose orders to his directors are: 'Make a picture regardless of cost and make one that they will remember.'"

LEGISLATIVE VACANCIES TO BE FILLED

IN EVENT OF EXTRA SESSION, GOVERNOR MUST CALL SPECIAL ELECTIONS

Oklahoma City, Okla., July 5.—In the light of a prospective extra session of the legislature to be held the coming winter, it is noted that there are already several vacancies in both houses of the lawmakers. It is likely that Governor Williams will call elections to fill these in time for the new members to sit in the extra session. The questions that are to come before the legislature are such that the governor will probably desire every district to be represented.

The policy of the administration as to establishing industries at the penitentiaries is of moment. It will probably be to ask for appropriations to establish an oil mill at Granite that the legislature will be convened. Then there is the exceedingly interesting situation growing out of the supreme court decision as to the "grandfather clause," which will come in for consideration, and the prospect seems to be good for necessity for further legislation as to revenues. This latter is predicated upon the theory that the gross production tax which is to be submitted in the supreme court this month will be decided in such manner and in such season as to make it desirable for further legislation.

Vacancies in the lower house exist in the Thirty-third district, being Latimer county; in the Fifty-third district, being Cherokee county, and in the Fortieth district, being Woodward county. In the senate there are vacancies from the district represented by Senator Burford of Guthrie, being the Twelfth, and by Senator Paigh of Anadarko, being the Fifteenth.

Representative Kelly Brown of Ardmore, has formed a partnership with N. B. Maxey of Muskogee, and his probable removal to the latter city will make a vacancy in the Ardmore district.

Senator Shaw of Tishomingo has accepted a place as prison physician at the McAlester penitentiary, but whether or not he will resign his office as state senator is to be seen. Under the terms of an opinion by J. H. Miley, the assistant attorney general, it would seem to be a question for the senate to decide whether or not his acceptance of the place at McAlester vacates his office as senator in case he shall not resign.

There are probably other vacancies due to removal that have not come to the attention of the executive. Of all the vacancies that are noted here, but one is in a district likely to be represented by other than a democrat.

Senator Burford, who resigned from the Guthrie district, is a republican and it is probable that his successor will be a republican.

MORGAN NOW OUT OF DANGER, PHYSICIANS SAY

(CONTINUED FROM PAGE ONE)

and newspaper men in a dozen cities of the nation who were attempting to trace his career.

Holt Is Weak.
Holt, the would-be assassin, was so weak when the keepers went to his cell to arouse him today that he could not sit up on his couch.

Unless his condition improves rapidly it will be impossible for him to be taken into court for examination next Wednesday.

Holt is weak from the loss of a great quantity of blood from the wound over his eye caused by the butler's blow.

Holt denied vigorously that he was Erich Muester, who was discharged from Harvard university.

A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to perfect a cure. Send for testimonials from this and other states. Dr. E. W. Hall, 2925 Olive Street, St. Louis, Mo. Sold by druggists.—Adv.

FOLEY KIDNEY PILLS

FOR BACKACHE, KIDNEYS AND BLADDER

CALOMEL WHEN BILIOUS? NO! STOP!
MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" Is Harmless To
Clean Your Stagnant Liver
and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crumbles into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee: Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't strengthen you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

For Sale—Kitchen cabinet. Cheap. Leader office.
